Boston Rohan

Software Developer

CAREER OBJECTIVE

Passionate software developer dedicated to creating modern, clear, and effective web applications. Fully committed to learning any technology necessary to excel at the position. Currently, I am familiar with the MERN stack (MongoDB, Express, React, NodeJs). I love to learn and will work relentlessly to be the best developer for my company, family, and community.

Employment History

Snapbrillia - San Francisco, CA
Jan.2022 - Present
